

Send Messages from Microsoft Outlook

WHAT IS THE OUTLOOK SMS SERVICE?

Compatible with both Outlook 2007 and 2010, PageOne's Outlook SMS service utilises Office Messaging Service (OMS), enabling JANET txt users to quickly and easily compose and send SMS messages to mobile devices, all from within Outlook, as easily as sending an email. It's the simplest, direct means for securely sending SMS messages to the contacts in your address book.

Unlike other Outlook plug-ins designed for the education sector, with PageOne's service there is no new software to install, no new workflows to learn or training required. By adding the service to Microsoft Outlook JANET txt users immediately have a fully functioning SMS service up and running in minutes, and can begin composing SMS messages to send to their Outlook address book straight away.

It's perfect for the diverse requirements of users, be it regular marketing campaigns or for more ad-hoc messaging needs.

FEATURES AND BENEFITS

- ✓ **Works with existing software.** No new software or installation required.
- ✓ **Easy to implement.** Add the new settings to Outlook and you can be up and running in minutes.
- ✓ **You already know how to use it.** The seamless integration with Outlook has no new workflows to learn – send text messages in the same way you would send email.
- ✓ **Speed up your communication.** SMS messages can be sent in seconds and its immediacy provides significant time advantages over email.
- ✓ **Step by step guidance.** In-product wizards guide you step by step through core functions such as sending messages and importing SMS replies.
- ✓ **Low upfront investment and cost.** Empower your organisation with SMS functionality with minimal expenditure
- ✓ **2-way SMS option.** Add 2-way SMS into your Outlook messaging service.
- ✓ **Flexibility.** Schedule messages to be sent at a later date.

INTERESTED IN USING THE OUTLOOK SMS SERVICE?

To sign up for the Outlook SMS Service or to enquire about any of our other services, contact the JANET txt team on 0844 822 5100 or email us at janettxt@pageone.co.uk to speak to one of our messaging specialists.

Did you know?

PageOne also offer an SMS Plugin for Excel. It's an easy way to send SMS from an Excel worksheet and make use of data exported from a database.
